

BPS 7100

ART. NO: 7100 | HEAVY DUTY ALKALINE CLEANER

Used for extremely dirty surfaces. Mainly used outside. Dissolves soot, greasy residues.
Biodegradable.

BPS 7100 is a highly alkaline cleaner, used for cleaning of very dirty surfaces.

BPS 7100 can be used on surfaces as:

- Plaster
- Limestone
- Concrete
- Alkaline bricks

INSTRUCTIONS FOR USE

Wet surface with cold water. Apply **BPS 7100** with low-pressure sprayer, a soft brush or a roller. Apply from bottom to the top. Leave for approximately 30-60 minutes. Ensure surface remains wet during acting time. Jet off with high pressure, (pressure depending on surface, 50-300 bar, 20 litres/minute and 25°-angle nozzle). Work from bottom to the top. Use preferably warm water, maximum 50°C. Rinse with plenty of water to avoid residues of chemicals. If necessary, repeat the procedure. If the surface is going to be painted; neutralise cleaned area with a weak acid to obtain a pH value below 9..

Dosage

Use as concentrate or dilute 1:2 with water.

Consumption

Normal usage: 0, 2 – 0, 3 litre/m².

Storage

Store frost free in original container.

Shelf life

24 months in unopened container.

Technical data

- Dark brown liquid with no odour.
- Packaging: 5 or 25 litre plastic jerricans.
- Density: 1,2 kg/litre.
- pH value 14.
- Contains Potassium hydroxide, C9-11alcohol ethoxylate, hexyl D-glucoside.

Safety precautions

Special caution must be taken, as **BPS 7100** is a **CORROSIVE** product. Use protective clothing, visor, glasses and gloves. If product comes in contact with eyes, rinse with lot of water and immediately go to hospital. In case of skin contact, rinse with lot of water, go to hospital if necessary.

Marking: Danger

Causes severe skin burns and eye damage.

Classified as dangerous goods at road and sea transport.

UN 1814, POTASSIUM HYDROXIDE SOLUTION

Class: 8 PG: II
