

BPS 7320

ART. NO: 7320 | ALUMINIUM CLEANER

BPS 7320 contains a unique blend of surfactants and acids. Used for cleaning of aluminium. Does not affect the sewage system. Especially suitable for removal of traffic pollutants and soot from aluminium. Biodegradable.

BPS 7320 is used for cleaning of aluminium surfaces that are polluted with traffic dirt and soot.

BPS 7320 must not be used on electrolytic treated surfaces.

Application instructions

Wet surface with cold water. Apply **BPS 7320** with a low- pressure sprayer. Leave for 5-15 minutes. Agitate the surface with a brush or high pressure, warm or cold water. Repeat the procedure if necessary. Rinse with plenty of water for removal of any chemicals on surface.

Dosage

Use as concentrate.

Consumption

Normal use is approx. 0,1-0,2 litre/m².

Technical data

- Light brownish liquid with low odour.
- Packaging: 10 or 25 litre plastic jerricans.
- Density: 1,05 kg/litre.
- pH approx. 1.
- Contains phosphoric acid, benzene sulfonic acid, ammonium bifluoride, hydrochloric acid.

Storage

Store frost free in original container.

Shelf life

24 months in unopened container.

Safety precautions

Use protective clothing, gloves and glasses.

Marking: Danger

Causes severe skin burns and eye damage.

Classified as dangerous goods at road and sea transport.

UN 3265, CORROSIVE ACIDIC ORGANIC LIQUID, N.O.S.

Class: 8 PG: III
