

BIO ONE LIME

ART NO: 2401 | ODOUR CONTROL

BIO ONE LIME is a ready-to-use product, specially formulated to eliminate objectionable odours in household, institutional and industrial settings. Ready biodegradable. Rapid and long-term effect. Safe to use.

BIO ONE LIME consists of a water carried formula of non pathogenic viable bacterial culture.

BIO ONE LIME is acting in a two-step procedure to capture and destroy odour, not just cover them up. First, a fast acting neutraliser binds the odour-causing molecules. Then specially selected bacteria degrade the molecules and convert them into odourless carbon dioxide and water. **BIO ONE LIME** has a deep penetrating action.

BIO ONE LIME is a liquid product and can be used in different ways: direct odour spray or direct spray and wipe to clean hard surfaces to remove odours.

BIO ONE LIME can be used in areas such as: public restrooms, restaurants and institutions (schools, jails, and hospitals), animal care, transportation, laundry rooms, fitness facilities etc.

Dosage

BIO ONE LIME can be sprayed neat or diluted up to 10 times with water.

Consumption

0,1 - 0,3 ltr/m².

Technical data

- Clear to opaque liquid.
- Packaging: 5 or 25 litre plastic jerricans.
- Density: 1.0 kg/litre.
- Fresh scent of lime.
- pH value approximately 6-8.
- Contains citric acid, sodium xylenesulfonate.

Storage

Store frost-free in original closed container.

Shelf life

Approximately 24 months in unopened container.

Precautions

Safety glasses in case of splashes.

Marking:

No marking is required.

Not classified as dangerous goods according to ADR or IMDG.
